

Interviewing the community

Dear community member,

Firstly, we would like to thank you for your ongoing support here at the ASA.

Community is a big value and aspect of the ASA, and we would like to hear from our community and share the insights of our community in our monthly EQUITY magazine.

As you may have seen in the past we have had members interview in the EQUITY magazine. We are looking to have a member in each month moving forward, and this is where we are needing your help to benefit all our members.

We have put together these questions so our members can fill them in and email them back to us or mail them into the office. If you are comfortable with it, we are also adding in photos of the members as seen in the past interviews.

We have a lot of valuable insights amongst all our members and would love to hear from you. We have provided you with questions below, please choose your favourite 6-7 to answer.

Please email your answer to share@asa.asn.au and attention it to Jade. If you wish to mail in your responses, please send them to PO BOX A398, Sydney South, NSW 1235

Many thanks and big appreciation for your ongoing support.

Kindest Regards

Jade Ellul

Customer Service Officer

Interviewing the community

Full name:

Location of member meeting:

- How long have you been investing?
- What got your interested or started in investing?
- How would you best describe your investing style?
- How would you say your investing style has evolved since you started and over time?
- In your opinion, what are the biggest mistakes that investors make, and you would like to help other members to avoid?
- What are the key aspects you like to see in management and governance with the companies you invest in?

Interviewing the community

- What are your favourite resources to gain knowledge and information about investing and the current market? (Books, newspaper, websites etc)

- In your opinion, what are the advantages that the ASA provide you beyond investing?

- What is your favourite and least favourite share, and if you wish to, can you please explain the reason as to how this became so?

- What would your best advice be to newcomers to the market?

- If you could go back in time with the knowledge you have now with investing, what would you do differently?

- In your opinion, what has been the most beneficial changes to the market?
